been ill, is now improved in
health.

From C.P.R. Crop Report

Winnipeg, November 1.—
Snow and rain on Friday last,
and again yesterday caused the
entire suspension of threshing
operations in Manitoba and
Saskatchewan, and at least two
or three days of good weather
will be required before stocks
are in shape for resumption of
work according to crop report
of the Agricultural Department
of the Can. Pac. Ry. Except
for light snow flurries in scat-
tered districts on Calgary and
Edmonton Divisions, which
caused slight interruption,
threshing made good progress
in Alberta. At present, in Man-
itoba, 80 to 85 per cent of the
wheat, and 80 per cent of the
coarse grains have been threshed.
In Saskatchewan, 90 per cent
of wheat and 85 to 90 per cent
of other grains; Alberta, 90 per
cent of wheat and about same
percentage of coarse grains. One
week of good weather should
be sufficient to enable com-
pletion of threshing through-
out west, and if this material-
izes there is no doubt that the
most of the grain which still
remains to be threshed will
prove to be in much better
shape than seemed possible
earlier in the season.

Hospital Notes

Mrs. T. Crushall, of Cleve-
land, underwent treatment for
a few days last week.

Ernie Fountain is improv-
ing nicely, following his recent op-
eration.

Miss Ruby Staples, of Seattle,
who was operated on for ap-
pendicitis, is improving.

The three children, of Mr.
and Mrs. Percy Fordman, had
their tonsils and adenoids re-
moved, November 1.

We are pleased to report that
Norman Cook, of Social Plains,
who was seriously ill with blood
poisoning, is now making satis-
factory progress towards re-
covery.

Mrs. Pauline Bishoff, of Es-
tuary, returned home, on Mon-
day, convalescent from an ap-
pendicitis operation.

A. Kelt, of Mantario, is im-
proving nicely.

John Tombsch, of Praelto,
who has been an inmate of the
hospital for some time, returned
home last week, much im-
proved in health.

David Nab, a newsmen from
Europe, was in the hospital
for an injury received on board
ship, when crossing, has re-
turned home.

Alberta Machine Shop & Garage Destroyed By Fire, Saturday

Acetylene Hose Bursts: Flames Destroy Building in Brief Time

Fire visited our town on Sat-
urday morning, October 30, and
completely destroyed the Alber-
ta Machine Shop and Garage.

The fire occurred with start-
ling suddenness, at about 9.30
a.m., during a welding opera-
tion and was caused by the
bursting of the acetylene hose.
Citizens attention was aroused
by the ringing of the fire alarm,
and great masses of curling,
dense black smoke were issuing
from the building almost im-
mediately. Frank Scott, who
was operating the welding out-
fit had to make a quick escape,
the fire it doing its way almost
at once to all corners of the
premises. The local fire-
fighting equipment was soon
on the scene, but nothing could
be done, and inside of thirty
minutes all that remained of
the building was a mass of
burning embers.

All motor cars, that were
stored in the garage, except one,
were saved from the flames, but
the rest of the contents, sup-
plies, equipment etc., even the
books and inventories were
destroyed.

The loss is a severe one for
town and district—as the shop
was well equipped—and is esti-
mated at over \$10,000. Frank
Scott, is the chief sufferer, Art
Scott, owning a minor interest.
Part insurance was carried. Mr.
Rog, fire insurance adjuster
arrived here on Wednesday
and is making an inspection of
the site of the happening.

Much sympathy is expressed
with the Scott brothers in their
loss. Their intentions are not
known at this time.

Exhibits for International Show Lines Next Year

Those farmers in the province
who plan to exhibit seed grain
at the Chicago International
Show this year are reminded
that entries close at Chicago on
November 10. Any entries re-
ceived at the Seed Branch of
the Department of Agriculture
at Edmonton, by November 8,
will be in sufficient time. Ex-
hibits of grain must be re-
ceived in Chicago by November 22,
so that farmers who send their
exhibits to the Seed Cleaning
Plant, at Edmonton, are advised
to have them there not later
than November 10, to ensure
their reaching Chicago, in time.

John Bull Summons Another Meeting Of His "Board Of Directors"

London.—All eyes lead to England now for the Imperial Conference, that great cabinet of the British Empire, which will meet in the historic cabinet room at No. 10 Downing street on October 15. Prime ministers, marshals, delegates from the overseas dominions and representatives of the crown colonies are converging on London, the hub which unites the spokes of the British Empire.

It has been three years since John Bull called a meeting of his "board of directors," and many questions have arisen to crowd the agenda. There are the usual problems of industrial growth—trade, immigration, defence and communication—but these will be dominated this year by a question which goes to the very roots of imperial relations.

The big question is the treaty-making status of the Dominions in foreign affairs. The part of Locarno, which made Great Britain the policeman of the Rhine, marked a new departure in British diplomacy. For the first time in history England has been explicitly separated from her Dominions by a treaty.

Probably the next question of importance will be the discussion of the individual status of the Dominions—namely, Ireland, Africa, India, and the Pacific. African premier in a speech delivered last May, urged South Africa's claims of a sovereign status and demanded that Great Britain should recognize the Dominion independence for the Union of South Africa.

It has been believed about, however, that since his arrival in London, General Horne's views have been somewhat modified, and only the conference itself will develop the exact attitude.

Crowned Cauterizer King

Manitoba Gardner Captures Prize At Show Held In Cleveland

OTTAWA.—At the American Vegetable Growers' Association annual show, held at Cleveland, Ohio, Miss De Jong, a market gardener of East Kildonan, Man., six miles north of Winnipeg, was crowned cauliflower king of North America.

In competition with entries from 11 states, Miss De Jong's cauliflower, which won the championship prize for the 12 head of cauliflower that he exhibited because of their superiority in size, weight, uniformity of shape and general appearance. Each of the dozen cauliflowers measured 11 inches in diameter.

Grape Growing In Alberta

Edmonton, Alta.—Grape growing on the prairies is no longer an experiment. In the Raymond, Alta., district at least two test plots have been planted, and the crops are showing good results. Delicious concord grapes for several years now, and the Hottelville colony, south of the city, has gathered from vine, 17 large baskets of fruit.

Next summer another large plot will be set out. The grapes were originally brought from South Dakota.

Awarded Gold Medal

Toronto, Ont.—Brooks, Vancouver, B.C., naturalist, has been awarded a gold medal by the Canadian National Exhibition for his work in the Wallace-Hervey fish collection of blue-painted fish shown in the natural history section of the exhibition.

Striking British Miners Have Rejected Terms Offered By Government

London.—The delegate conference of the Miners' Federation by an overwhelming majority, rejected the government's offer to create a national arbitral tribunal for the settlement of the differences between the miners and mine owners, and by an equally large majority voted in favor of the withdrawal of the safety men from the mine.

This the Government passed out of the dispute, temporarily at least, and the owners and the men are left to fight out the struggle between themselves.

The delegate conference adopted a resolution rejecting the government's proposals for a settlement of the strike after the announcement of a district vote, which opposed the proposal, 25,000 to 42,000.

The South Wales resolution to withdraw the safety men was adopted

Will Resume Customs Probe

First Sitting Will Be Held on October 25

OTTAWA.—Sittings of the enlarged Royal Commission investigating the customs department will be resumed Monday, October 25.

This was announced by W. D. Eider, Minister of Customs, while the minister gave no indication of where the commission would sit first. Information received here is that it probably will meet in Toronto. The Toronto sitting, it is expected, will be followed by others at border points in Ontario, and then the commission will likely go west.

Father Tries to Compel Dismissal of Son From Factory

Vienna.—A labor dispute attained an unusual character in Vienna when the father of a young carwright, Ferdinand Klotz, struck with the remainder of the Socialist workmen at the local Fiat automobile factory to force the management to discharge his son. The father, however, was not successful in the rival Christian Social Union.

The management refused the workers' demands, but asked the strike to give the younger Klotz work outside the factory.

Lady Stanley Dead

Wife Of Famous African Explorer Was Seventy-One

London.—Lady Stanley, widow of the famous African explorer, Henry M. Stanley, died at the age of 71.

Lady Stanley was a noted beauty and was famed in article and literary circles. She was an accomplished pianist.

Henry Stanley married Lady Stanley, a famous surgeon, in 1907, three years after the death of Stanley, she continued to be known generally as Lady Stanley.

Old Manuscripts Found

Unknown Poems Of Persian Poet Discovered In India

London.—The discovery of previously unknown poems by Omar Khayyam, the famous Persian poet, was announced by the British Express from Karachi, British India.

The correspondent says he has been digging for a foundation for a building at Sehwan, in the Province of Sind, unearthed a brass case containing manuscripts of many hitherto unknown poems written by Omar during his wanderings in Sind.

Discuss Liquor Problems

Vancouver.—Delegates to the Empire law administrators of British Columbia, Alberta, Saskatchewan and Manitoba were held here by R. E. R. Womach, of Manitoba, presiding. The western provincial officials explained they had under consideration problems of liquor administration, which have become common to the four provinces since they adopted the government control system. Their sessions are private and deal only with liquor administrative methods.

Krasin Returns As Envoy For Soviets

Seeks British Gold For Rehabilitation Of Russian Industry

London.—The return of Leonid Krasin to London as soviet envoy is thought to mark the beginning of a new phase of Anglo-Russian relations. M. Krasin, as he admitted in a general interview with the British press, means seeking money for the rehabilitation of Russian industry, and as he is a keen business man he realizes it cannot be obtained unless serious arrangements for the repayment not only of the new, but the old debts are made immediately.

His return is due to the culmination of a long series of secret negotiations with persons who, while not directly representing the conservative British Government, are in close touch with it. The conservative government is very anxious to resume friendly relations with Russia for the sake of the Russian market, which, it is afraid, may at any rate be the old debt. It is believed Russia is now willing to do this if not called on to pay too much more than she can afford.

The British also are disposed to insist on some guarantee that Russia will cease to interfere in the domestic affairs of Great Britain, and is willing to give a guarantee not to interfere in Russia. This means Russia must not be allowed to cause financial trouble in Europe.

Will Discuss Cable Dispute

But Canada Will Refuse to Have Matter Aired at Imperial Conference

Toronto.—The Star publishes the following staff dispatch from Ottawa: "Canada's participation in the Pacific Cable enterprise, like Canada's equal status within the Empire, is to be very definitely cancelled in London. The Imperial Conference will discuss the matter. 'The Dominion, it is understood, will steadfastly refuse to have the Pacific cable dispute aired in the Imperial Conference, holding that it affects only the four parties to the agreement, Britain, Canada, Australia and New Zealand. The British authorities while yielding this point will take advantage of the presence of the overseas Premier interested to seek a settlement of the matter.'

To Welcome Mayster

Washington.—Walter Mayster, a Canadian representative to Washington, who, it is said, will be Vincent Stanley, is expected to be welcomed by the official publication of the railroad employees' organization. Labor declares a better understanding of Canada is needed in the United States and says United States newspapers do not provide sufficient news concerning Canadian affairs.

Steamship Lines Feel German Competition

Liners Being Taken Off New York To Hamburg Run

MONTREAL.—Competition from German steamship lines operating on New York from Hamburg is said to be responsible for the projected withdrawal in the near future of several British companies from that run. The White Star line, which operates the Arabis on a five weeks schedule to Halifax and New York, return being made direct to Hamburg, took this ship on the run after her departure from Hamburg October 2. The liner will be employed on the Antwerp, London, Southampton, Halifax, New York service, her sailing from New York October 30 being direct to Antwerp and the next from Europe will be out of the Belgian port.

The S.S. Andalus of the Canadian Line has been on the Hamburg, Southampton, Cherbourg, Halifax and New York service, but it is expected she will be taken off on the completion of her schedule which calls for a sailing on October 26 for another on December 1 to Halifax and New York.

No change is being made in the Canadian Pacific sailings to Hamburg.

Curative Powers Of Sun

Pasadena.—The curative powers of the sun's rays are to be greatly increased during the next year, according to Dr. Edmond Pettit of Mount Wilson Observatory here. He has announced that he has found that the ultra-violet rays of the sun, the purifiers of the sunlight that cures skin diseases and also causes sunburn, are to be more numerous in 1927. This is caused, he said, by the increasing spots on the sun.

May Succeed Atkins

Winnipeg.—Theodore A. Burrows, pioneer of Manitoba, who came west from Ontario in 1875, is to be appointed Lieutenant-Governor of Manitoba, succeeding Sir James Aikins, according to a report from Ottawa.

Wheat Pool Payment

Final Payment On 1925 Wheat To Be Made Soon

Winnipeg.—Several millions of dollars will be distributed among the farmers of Western Canada, members of the Wheat Pool, shortly.

The final payment on 1925 wheat delivered by members of the pools in Manitoba, Saskatchewan and Alberta probably will be announced early this week. A. J. Macphail, president of the Saskatchewan Wheat Pool and vice-president of the Cooperative Refining Agency, will announce the date from his Regina office, according to information secured at the Manitoba Pool offices.

Mr. Macphail is the chief official now in Canada, the others being in en route to Australia. The Canadian Pool has already made three payments totalling \$1,400, while many farmers are now enjoying the initial payment of \$1 on the 1926 crop. Deliveries of the 1926 crop, however, are few but next year's crop is expected to be good. The total deliveries in Western Canada so far this year are about 400,000 bushels. Very little wheat has been received from Alberta, but Saskatchewan has contributed 25,000,000 bushels, and Manitoba about 15,000,000.

Want Alberta Coal

Premier Ferguson of Ontario Is Doing What He Can to Secure Supply

Toronto.—Commenting on the prospects for bringing Alberta coal to Ontario this fall, Premier Ferguson, of Ontario, said: "We have cooperated in the past with Liberal governments at Ottawa, with Farmer and Liberal governments in Alberta and with a Liberal old-time coal-miner here, and have gone as far as we can. If there is an explanation for failure to obtain supplies from the West this year you will have to look to Ottawa for it."

"We cannot go up there and bring the coal to Ontario ourselves," he said.

Mayor Thomas Foster, of Toronto, today wired Hon. Charles Stewart, Minister of the Interior; Premier J. E. Brown of Alberta; and John D. Lee, president of the Edmonton Board of Trade, stating that the city wanted Alberta coal. No definite date has yet been set for this projected trip, but it is said to be one of the first plans undertaken by the British in the near future.

Making Use Of Radio

Talks on "Opportunities Overseas" Will Be Broadcast in London

London.—Arrangements have been made to broadcast the British Empire Exhibition and the High Commission for the Overseas Dominions for the broadcasting of a series of talks on "Opportunities Overseas." They will be written in the Dominions by prominent handworkers, who have succeeded in the work tasking them on their landing from England and forwarded to London, where they will be broadcast by the British Broadcasting Corporation of the Dominion concerned.

Royal Wedding Set For November 20

Stockholm.—The wedding date of Princess Astid of Sweden and Crown Prince Leopold of Belgium has been set for November 20 in Brussels.

Half-a-Million Chinese Are Facing Death In Besieged City of Wuchang

Hankow.—Pinned up more than a month by the Red Cantonese forces, the besieged city of 500,000 Chinese people face death by starvation, cold and gunfire in Wuchang. Large numbers of dead lie in the streets. Those remaining have eaten dogs, cats and rats, and are dropping in public places or dying miserably in shelters into which they have crawled.

The Northern troops of Marshal Wu Peifu, garrisoning the city, having been refused terms of surrender, are holding on desperately, hoping for aid from their ally, Sun Chuan-fang, to break through the Cantonese cordon.

Meanwhile the relentless and well-armed Cantonese outside the wall press on their march. Chinese are holding on desperately, hoping for aid from their ally, Sun Chuan-fang, to break through the Cantonese cordon.

What will happen then is not known. A volley of merris has been shown.

OTTAWA.—Premier King and Hon. Ernest Lapointe, official delegates of Canada to the Imperial Conference, left late tonight for London. They were accompanied by a corps of secretaries and government officials acting in the capacity of technical advisers.

The leaving of the Prime Minister was preceded by a lengthy cabinet council in which a number of issues were done. Colonel J. J. Maclean, D.S.O., was made minister of national defence and forthwith went to Rideau Hall to be sworn in. It was agreed that Parliament should be called for Tuesday, December 7. T. A. Burrows, ex-M.P. for Banff, was appointed Lieutenant-Governor of Manitoba in succession to Sir James Aikins, whose term has expired, and Senator Wilfrid Laurier, who is known to be a member of the Montreal Harbor Board, which position he resigned on appointment to the Senate. Now he returns to it without salary, because being a senator he cannot have another source of emolument under the Crown. As a matter of fact he does not need it. The vacant position of Lieutenant-Governor of Ontario has not been filled, but it is known that it has been offered to Sir William Mulock, Chief Justice of Ontario and official moderator of the B. I. C. King. Sir William's call but official action has not been taken.

While Mr. King is away, the ministerial business will be conducted on and arrangements made for the parliamentary session. The Canadian House will be back by the time Parliament assembles.

May Visit West

Sir Alan Coghlan Is Planning Trans-Canada Flight

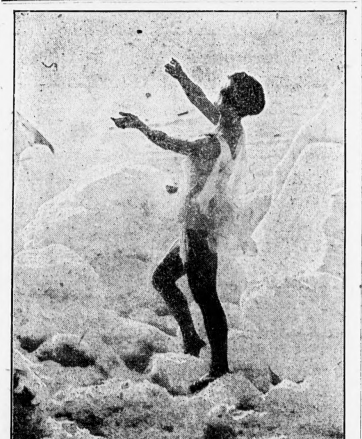

London.—Sir Alan Coghlan, upon whom the honor of Lightholder was conferred a few days ago in recognition of the famous aviator's series of world-renowned flights, will visit Western Canada some time in the near future. It is stated in the London papers that Sir Alan is planning a trans-Canada survey flight in which he will visit many points in the Dominion. No definite date has yet been set for this projected trip, but it is said to be one of the first plans undertaken by the British in the near future.

The Daily Express today said that Coghlan was contemplating a trans-Atlantic plane flight and that it would likely follow a lecture tour throughout North America. Plans for the flight have been discussed for some time, the paper stated.

Sir Alan Coghlan had recently returned to London from a visit to Australia, in which he proved conclusively the feasibility of such long distance flying. It experienced various and worthy planes as employed.

Cold Strike Affects Brazil

Rio de Janeiro.—The cold Brazilian cold strike is crippling Brazil's transportation facilities, the government having cut down train service in order to reduce the consumption of coal. The shortage in coal is due to the fact that many steamers have dismantled the South American trade in order to have the more lucrative transport of coal from the United States to Europe.

WORLD HAPPENINGS BRIEFLY TOLD

Professor P. Alexander Guthrie, 50 president of the University of Jena, Germany, committed suicide. No reason is assigned for his act.

Britain is now exporting motor cars to the Dominions at the rate of 21,000 a year. In 1922 the number of cars exported was only 5,000.

The condition of foreign missionaries in China is becoming increasingly precarious. In twelve recent missions, there has been reported recently from widely separated cities.

Seven hundred and seventy-eight women slavers have been caught in the last five years by Miss Gertrude Hunter, a detective employed in one of London's largest department stores. After enlisting three days.

After enlisting three days, the private crew, the Chinese steamer Hsing Ping arrived at Hong-Kong, the slavers having fled on the approach of seamen.

British citizens regardless of position or rank, are forbidden by a new constitutional amendment to accept foreign decorations. Citizens accepting such honors will lose their citizenship.

It's Sir Alan Cobham now. The man who culminated a series of daring long distance flights with a 2500 mile jaunt to Australia and return, has been made a knight commander of the British Empire by the King.

In a conflict recently between a motor cyclist and an express train, covering a distance of 500 miles between Sydney and Brisbane, the motor cyclist won, reaching his destination 30 minutes before the express.

Frank "Tex" McLeod, 41, well known as a rider and reporter at western rodeos in the United States and Canada, was killed near his home when his automobile overturned. He had driven but a few times and apparently lost control of the car. He was alone at the time.

The skull of a palive of South Africa, who died a short time ago was found to measure 8 1/2 inches in length, with a capacity of 112 cubic inches. The discovery of this huge skull at the present day is believed to strengthen the theory that Africa was the cradle of the human race.

Duke Charmed With Rockies

The beauty and charm of the Canadian Pacific Rockies have redounded strongly upon the tourist, the trail rider and the mountain climber and of the many expressions of appreciation received at the tourist department of the Canadian Pacific Railway, the following was received from Duke 1000 of Leuchtenberg, Count de Beauharnois, who journeyed with the Trail Riders of the Canadian Rockies during their recent annual ride from Lake Louise. From Banff he writes:

"I am terribly sorry that this wonderful summer is coming to an end. This country is certainly one of the most beautiful and widest I have ever been in. Lake Louise is really an ideal spot. I shall have about 2,000 feet of film of the prettiest spots of the region surrounding Banff and Lake Louise. We are about to start out for Mt. Assiniboine where from we shall go to the Yoho Valley."

The Duke is a liberal descendant of Charles, Marquis de Beauharnois, who governed Canada in the name of the French King Louis XV. between 1726 and 1747. He travelled from Chateaufort on the C.P. line, meeting his cousin the Marquis D'Albini to take part in the 34-day ride of the Trail Riders.

Has Never Accepted Salary

Checks Sent to Governor of Massachusetts Not Cashed. Governor Alvan T. Fuller has not accepted his salary from the State of Massachusetts for the past six years, allowing \$25,000 to go back into the general funds of the Commonwealth. As Congressman he did not take salary from the United States; as lieutenant-governor for four years he did not take the salary of \$4,000 a year, and so far he has not collected the \$17,500 which he has earned as governor at the rate of \$10,000 a year.

A salary check sent him each month from the state treasurer's office has never been cashed. At the end of a year, all unpaid checks are outlawed and the banks instructed not to cash them.

Capt. Bernier To Go North Again Canadian Explorer Looking Forward To New Ventures in Hudson's Bay.

Capt. Bernier, hero of many exploits in the Arctic, said, in regard to the recent action of the Russians in seizing Wrangel Island: "We had no right there in the first place. Personally, I have never approved of the action. I was a boy, I remember the island colored in yellow on the map, the color of Siberia." The explorer is looking forward to a new venture next year out of Hudson's Bay.

Immigration And Balanced Production

By G. W. Peterson

Every now and then objections are raised to policies having for their object an increase in Canadian population, on the grounds that we have not yet completely solved our industrial unemployment problem and, therefore, should not add to our present difficulties. Such objections are based on a complete misapprehension. They are undoubtedly valid in fully developed, overpopulated countries but that line of reasoning cannot consistently be applied to a new country like Canada. One family placed on a farm will create employment for from one to two additional families in out-own through his own consumption of commodities, machinery and the like and through producing the raw material of urban industry.

The recent European war and its aftermath brought home to the world a multitude of strange economic facts, many of them as old as the hills, but up to that time wholly unrecognized. One of the outstanding lessons taught mankind was that there is absolutely no limit to the amount of work to be done in this world, or to the amount of business to be developed. The truth is that overproduction is inconceivable. The purchasing power of every country lies in its own power of production and the more each country produces, the greater may be its trade with other countries, and the more they all produce together, the greater the variety of comforts and necessities available for the world's population. We have not even approached within measurable distance of satisfying reasonable human wants alone over supplying them.

What Canada, and many other countries, has suffered from during recent years, and what has given rise to general unemployment, is not overproduction, but unbalanced production. While Canada's population has been unusually distributed, our aggregate working force has been, and still is, vastly below our minimum national requirements. With millions of acres of the world's richest agricultural land lying idle and undeveloped, and the world clamoring for food, it is paradoxical to harbor an unemployment problem. Widespread unemployment under such conditions is prima facie evidence of backwardness, and it is in so far as sufficient intelligence and energy has not been focussed on the solution of a problem, which obviously leads itself to correction by well known and proven methods, namely, the augmentation of our productive agricultural population, which would speedily find full time employment for our industrial plant.

England's King Never Dies The King of England never dies. His moment a sovereign passes away, his title, dignity, and powers automatically are transferred to the heir apparent, who thereupon becomes "afraid" even though he may not have reached his majority.

Secret Desires Of Royalty

If In Other People's Shoes What They Would Do

One of the weaknesses of Royal personages is to be unable to intimate friends what they would most like to do if they were in other person's shoes. King George, Incognito, would prefer to attend a horse race, and tangle with the crowd.

Queen Mary would ride on top of a London bus, all day long.

King Albert of Belgium, would travel in foreign lands and do a great deal of flying.

King Alfonso of Spain, would like to don the garb of a peasant, and live the life of a peasant for a week or two.

The Queen of Spain would appear on the stage.

Queen Marie of Rumania, would travel extremely abroad, write novels, and listen to what the people said about her.

The Prince of Wales has never got over his fondness for climbing trees, which was denied him as a boy.

Queen Victoria always wanted to ride on a street car, but she never even had a railway ticket in her hand.

King Edward often proposed to ride in London's underground, but procrastination defeated his aims.

Pay Day P. O'Connor

Rt. Hon. T. P. O'Connor is 78 Years of Age.

Rt. Hon. Thomas Power ("Jay Pay") O'Connor, M.P., editor of "The Star" and "The Weekly," and member of the House of Commons, celebrated his 75th birthday recently.

Probably nobody of his age turns out as does this noted newspaper writer and statesman. His powers of writing reminiscences are prodigious. He is known by everybody among the famous ones of the world and by a few of the infamous ones.

As "father" of the house of commons he was entertained by all parties in parliament at a luncheon on his 75th birthday. He was made a privy councillor in 1921. He became censor of films in 1917.

From His Viewpoint

The small boy had always been afraid of dogs. One day, after a long struggle to get him to pass a large dog, his mother scolded him for his timidity. "You'll be afraid of dogs," was his justification. "If you were as big as I am."

Bars Dampness And Wind Indefinitely

Most building papers soon lose their insulating power. As the faded boards become disintegrated, moisture finds air comes through the walls and chills the building.

Heretofore sheeting remedied this condition. Reinforced by an exclusive insulating coating it offers permanent resistance to wind and dampness. It is used in buildings as well as walls and effects real economy in heating.

D. M. GRAHAM,
Secretary-Treasurer,
Municipal District of Acadia No. 241.

This is a copy of advertisement which appeared in the Alberta Gazette on Sept. 30th, 1926.

An attempt is being made by the Canadian railroad companies to have the construction of baggage receptacles standardized in order to facilitate its handling. A meeting between representatives of the railroad companies and of Canadian baggage manufacturers was held recently in Toronto by W. E. Allison, general baggage agent of the Canadian Pacific Railway, and it was generally conceded that minimum specifications for baggage construction should be adopted.

Reports of recklessness on the part of motorists continue to be received at the headquarters of the Canadian Pacific Railway. In the majority of cases the accidents are reported to have been the result of negligence on the part of the car owners. Two accidents at public crossings were reported recently: one near Wingham when a Ford coupe ran into the side of a train which was proceeding slowly over a crossing. The second accident occurred when a truck was driven in front of a C.P.R. train at a crossing near Chatham. The train was backing over the crossing at three miles an hour. In each case crossing and engine signals were given.

The United Sunday School, will meet at 2 o'clock on Sunday, instead of 11 o'clock, as formerly.

Miss Elsie Guild, B.A., Principal of the Schools at London, spent last week with her cousins, Rev. and Mrs. N. W. Whitmore.

Rev. and Mrs. Frank Chapman, and children, who have been visiting relatives north of town, left for Moose Jaw, Wednesday.

It will be fine to meet your friends at the United Church opening, Sunday evening—and at the turkey dinner on Monday evening. There will be good concert too.

Be sure to see the biggest laugh show of the season, "Sid Chaplin, in 'The Man on the Box,'" Empress Theatre, Thursday, November 11.

Mrs. Montgomery, housekeeper, at the hospital, left this week on a vacation at Medicine Hat. Her position is being temporarily filled by Mrs. Arnold.

Buy a Poppy to wear on Armistice Day. The I.O.D.E. will sell them and hold a tea and sale of home cooking on Saturday next, November 6, from 3 until 6 p.m., in the building formerly occupied by Dr. Dunbar.

Joe Knapik, Nick Skappok and Jack Mahura, each agreed to put up the price of a subscription to the paper. The two former came through, but Jack was unworthy to be numbered as the "Three Musketeers," and defaulted on a pile of financial stringency, owing to matrimonial intentions.

Dux James tells this good story on a newspaper: A man handed in an ad. offering \$25 for a lost dog. A day

or two later he called around to see if it was printed. He found only the janitor and asked when the paper would be out. The reply was:

"There will be no paper published today. Some man left an ad. offering \$25 reward for a lost dog, and the whole staff is out looking for his dog."
